

# Introducing the Magic Table to Perley Health

The Magic Table is an innovative, interactive tool designed to enhance the lives of people living with dementia and has been shown to have a positive impact on the quality of life of residents in long-term care. It is a device that uses sensors and projectors to display a variety of games and activities that engage users in meaningful, fun and stimulating ways.

## Adaptable

The Magic Table is designed to adapt to the various stages of dementia. It has an impressive library of multi-level activities and games that are tailored to the changing cognitive phases associated with dementia.

## Improved Health Outcomes

The Magic Table creates an immersive and engaging experience for residents living with dementia by promoting social interaction, cognitive stimulation and physical activity. It has also been shown to help overcome apathy and decrease restlessness.

## Resident-Centered Care

One of the key benefits of the Magic Table is that it can be tailored to individual interests and care needs, improving the well-being of residents. It also offers a non-pharmacological option for addressing behavioral and psychological symptoms of dementia.

## Positive Caregiver Impact

Research showed that the Magic Table resulted in highly enjoyable quality time between caregivers and residents, helping to strengthen their relationships. It also led to improved job satisfaction for health care providers in long-term care.

## The Magic Table is Coming to Rideau 1 North in May 2023!

Dates for planned demo sessions will be announced in the coming month, stay tuned! Residents, family and staff will be invited to share their experiences with the Magic Table. Please contact Kimberly Campbell at [kcampbell@perleyhealth.ca](mailto:kcampbell@perleyhealth.ca) for more information.
