

Help shape the interior design of Perley Health's new Long Term Care Project

When and Where

April 20th, 2026

Residents – 10:00-11:30 AM, Lupton Hall

Families – 2:30-4:00 PM, Benidickson Board Room

Description

Perley Health is gathering interested residents and families to participate in a Perley Community design engagement session for our upcoming Long-Term Care Expansion Project. This new six-storey, 120-bed addition will bring thoughtfully designed Resident Home Areas to our campus, inspired by the Small House Model of care and instilling a Home-like atmosphere. We are seeking the user groups input on key interior elements including wayfinding, signage, memory and heritage walls, colour themes, and the character of shared spaces on each floor. Their participation will directly influence the design of a place that will be home to generations of Perley Health residents.

Wayfinding & Signage

Character of shared spaces

Colour themes

Memory and Heritage walls

Group Sessions at the Perley
